

Summer Year 5

SACRED HEART
CATHOLIC PRIMARY
SCHOOL & NURSERY

English

We will be reading *The Lost Book of Adventures*. This rendition of survival tales will give us the opportunity to create a survival narrative. We will then explore the non-fiction aspect of writing a survival guide.

We are reading...

Our next unit will focus on King Kong and we will write our own dilemma narrative after exploring the emotive language used in King Kong. We will then move on to writing a balanced argument.

purple mash

Computing

We will be learning about how to use concept maps to support research. We will enhance our word processing skills and becoming more efficient in Information Technology. We will also develop our use of spreadsheets.

Maths

We are learning about: Statistics, measure of time, measure of area and perimeter and continuing to focus on number.

We will embed our knowledge of calculation using number facts and properties to help us to problem solve.

Science

This term in Science, we are going to be deepening our knowledge of Materials by looking at the properties of different materials and how transparency and conductivity can influence choices on the use of materials.

We will then move onto exploring reversible and irreversible changes in materials whilst working scientifically.

R.E.

We are going to learn about and answer questions on:
Transformation – How Can Energy Transform?

Freedom and Responsibility – How Do Rules Bring Freedom?

Stewardship – Can I Be a Steward Of Transformation?

History

What did the Greeks ever do for us?

This term, we will look at investigating the city of Athens and Sparta. We will compare them using similarities and differences.

This unit will link to British Values and learn about how democracy was demonstrated in these civilisations and how they were governed.

We will deepen our knowledge of the legacy the Ancient Greeks have left us in architecture, The Olympics, art and theatre.

Art & DT

In Art this term, we will be focusing on creating a 3D sculpture using a clay to create Greek faces using printing.

In Design & Technology, we will create a mechanical system for pulleys base on our knowledge of engineering.

Music

This term, we will explore improvising in the theme of Blues. We will focus on composition and notation.

We will then move onto learning how to loop and remix music using technology.

PE

In PE, we will be improving our skills in swimming, gaining more practise in a range of strokes.

We will also be working on athletics, dance and gymnastics.

Geography

Would you like to live in the desert?

During this term, we will be focusing on exploring biomes and their various characteristics. We will deepen our knowledge of mapping and focus on North America based on how humans interact and adapt to living in a desert.

We will compare habitats and explore why people may choose to live in a desert, linking back to why people choose to live near volcanoes (Y3).

PSHE

We will be exploring acceptable physical contact and devising strategies on how to deal with peer pressure in relation to drugs, alcohol and tobacco.

We will continue to work on how to respect ourselves and therefore each other and how we have an impact in the wider world. We explore our responsibility to be careful with our use of technology and how this can affect our sleep.
